

Company Profile

Overview of capabilities, products, and operations

About us

Superior Link Nigeria Limited is an indigenous oil & gas logistics and trading company. We provide structured downstream supply and controlled delivery with audit-ready documentation, serving customers across priority Nigerian corridors and select cross-border markets.

Products

- PMS (Petrol): best for marketers, high-throughput stations, depot-linked resellers; spot supply, weekly contracts, delivered pricing.
- AGO (Diesel): best for industrial plants, construction, logistics parks, fleets; spot supply and standing supply agreements.
- Jet A1: best for aviation marketers, charter operators, approved supply chains; spec compliance and delivery discipline; NDA for sensitive docs.
- CNG: best for CNG stations and fleet conversions; partnerships + supply planning; corridor availability varies.

Logistics & QHSE approach

- Dispatch controls and journey management per corridor.
- Driver rules and safety discipline; incident escalation and reporting.
- Subcontractor controls where used: onboarding, compliance checks, and performance monitoring.

Documentation & compliance

- Deal sheet / order confirmation for each transaction.
- Loading ticket / depot documentation.
- Waybill and dispatch records.
- Signed Proof of Delivery (POD) and job file retention.

Company Profile (continued)

Markets, partnerships, and contact

Market focus

- Nigeria corridors: Lagos/Ogun, Abuja/North Central, and South East (subject to operational planning).
- International: West Africa coastal corridor and regional trading partners (export compliance and buyer qualification required).

Partnership opportunities

- Working capital / trade finance partnerships.
- Fleet/asset finance for logistics scale.
- Strategic partnerships for international market access and program supply.
- Investor engagement for expansion of trading volumes and logistics footprint.
